

Easton Library Tobacco-Free Policy

In accordance with New York State Law, Easton Library is implementing a tobacco-free grounds policy within 100 ft. of all entrances, exits, and outdoor areas.

The library respects the rights of all individuals to live healthy, tobacco-free lives. There is no safe level of secondhand smoke or vapor exposure, and in an effort to protect community health, all tobacco products are prohibited on the premises. Easton Library wishes to show that an active, productive, and enriching life is achievable without tobacco use.

All tobacco products are banned, including but not limited to e-cigarettes and vapes, cigarettes, cigars, and more. Additional items may be prohibited on a case by case basis at the discretion of library staff.

Staff, visitors, and community groups are required to comply. Your respect of this policy is much appreciated.
